**DYNAPROOFED®**  
**OUTBACK RUGGED CANVAS**

# technical superiority

## ▲ Dynaproofed™ - Fully Immersed Production Process

The Dynaproofed™ production process ensures the chemical formulation is penetrated into the yarns of the base fabric. This is achieved by fully immersing the fabric into a padding bath and then squeezing the formulation into the fibres. This system also allows the fabric to "breathe" as the woven base fabric is not sealed by a coating.

# COMPREHENSIVE FABRIC RANGE & PROFILES

Dynaproofed™ Fabric	Fabric Width	Loomstate Weight	Fabric Composition	Recommended Applications
Billabong	183cm	280gsm (8oz)	65% Poly / 35% Cotton	Camper Trailer Tents, Frame Tents, Caravan Annexe Walls
Bullduck TT	204cm	420gsm (12oz)	52% Poly / 48% Cotton with Corespun Tearstop	Heavy Duty Tarpaulins
Cannonball	183cm	410gsm (12oz)	100% Cotton	Swags and Non-Shaped Covers
Coolabah	183cm	220gsm (6oz)	65% Poly / 35% Cotton	Frame Tents and Camper Trailers
CS88	183cm	280gsm (8oz)	100% Corespun P/C 50/50 Poly/Cotton blend	Light Duty Tarpaulins, Backs Packs and Frame Tents
CS12 T/S	204cm	450gsm (13oz)	100% Corespun P/C 50/50 Poly/Cotton blend	Heavy Duty Tarpaulins
DX12	204cm	410gsm (12oz)	52% Poly / 48% Cotton	Caravan Annexe Roofs, Trailer Covers, Seat Covers, General Purpose Canvas
DN18	183cm	620gsm (18oz)	52% Poly / 48% Cotton	Heavy Duty Tarpaulins
Polyrug T/S	196cm	280gsm (8oz)	100% Polyester	Summer Horse Rugs
Rawhide	204cm	420gsm (12oz)	52% Poly / 48% Cotton	Heavy Duty Horse Rugs
Trojan 12	110cm	420gsm (12oz)	52% Poly / 48% Cotton	Heavy Duty Horse Rugs (same construction as Rawhide except narrow width)
Trojan 18	108cm & 204cm	630gsm (18oz)	52% Poly / 48% Cotton	Extreme Heavy Duty Horse Rugs

Note - Above quoted weights are for 'loomstate' or woven base fabric construction. The Dynaproofed™ process adds approx 30% weight to the base fabric.

## Care & Use for Dynaproofed™ Canvas Label

The high performance properties of Dynaproofed™ Canvas can be maximised with careful use and maintenance to provide many years of excellent service. Dynaproofed™ Canvas sew-in Care Labels are provided for every job so that end users can follow the recommended instructions.

## Reproof™ - Reproofing Compound

Reproof™ reproofing compound is the recommended product to restore the waterproofing and mildew resistant properties of weathered Dynaproofed™ canvas. Reproof™ is a formulation modelled on the high performance Dynaproofed™ formulation and is available in 2 Litre, 4 Litre, 20 Litre and 200 Litre containers.
